Monumento by Allan Burman and Albert De Boer

OVERVIEW

INSPIRATION

HOW IT WORKS

Monumento

Monumento is a new look, new style of headstone made from stainless steel rather than the usual stone. Its construction allows for glass panels to be inserted into the headstone, creating a stained-glass type effect which could be designed in a wide variety of shapes.

www.forevershining.com.au

About the Inventor

Allan Burman is from Currumbin in Queensland and Albert De Boer is from Perth. Both are engineers who met about 15 years ago through work.

Contact
